Weather Key Points

Regional Operations Center

Western Region

Wednesday, August 10

- Monsoonal moisture will continue to bring showers and thunderstorms across the southern mountains and desert and the central Sierra.
 - Some storms may produce locally heavy rain across the southern desert and mountains, but there are no major burn scar concerns through Thursday.
 - The Apple/El Dorado burn scars may become a concern again on Friday and Saturday with increased moisture shifting further westward across southern California
- Locally elevated fire weather conditions continue across southern and central California with continued warm and locally breezy conditions, especially closer to the mountains and foothills.
 - Locally critical fire weather conditions are expected across far northern California, including the McKinney Fire, through Wednesday.
- Minor heat risk impacts are expected across the state, with areas of moderate heat risk across the southern desert areas.
- Minor coastal flooding possible at southern California beaches due to high astronomical tides and southerly swells.

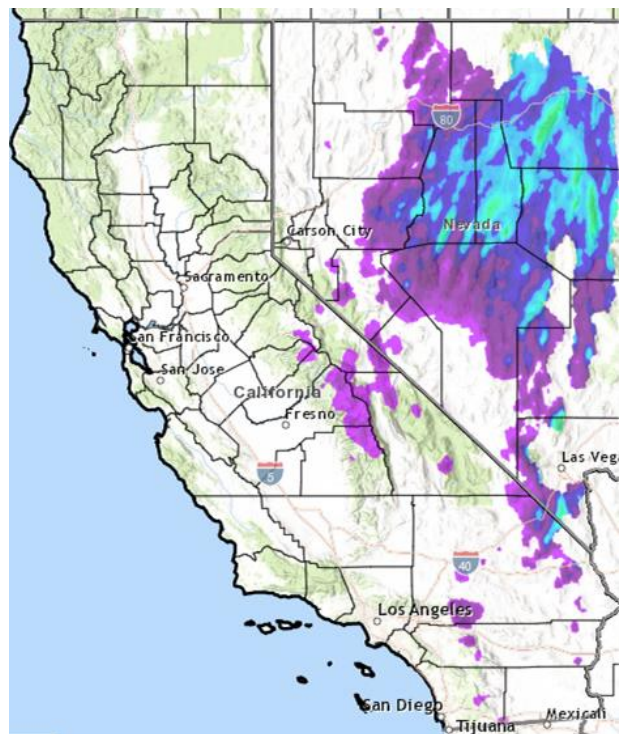

Precipitation Forecast

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

2022 May Monkeypox Virus

On August 1st, 2022 the Governor proclaimed a State of Emergency to support the State's response to Monkeypox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) has activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to 2022 May Monkeypox Virus Event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.

Situation Cell Activation

- The Cal OES Situation Cell is activated to an Enhanced Watch posture for incident reporting on the McKinney Fire.

Cal OES INLAND REGION

- Please see Fire Activity Slides
- Please see attached Situation Cell Incident Reports for the McKinney Fire in Siskiyou County.

Activations

- Inland REOC deactivated 08/09/2022
 - Inland Region continues to have one ESC deployed to Siskiyou County assisting them with the continued response and transition to recovery

Debris Flows and Flooding, Alpine County

On 8/3/22, a torrential rainstorm caused flash flooding and debris flows in Alpine County near Markleeville and over the Tamarack and Slink Fire burn scars. IDO and Senior ESC assigned to Alpine County are monitoring and supporting.

- SR 89 is closed from Webster St. to 4 miles south of the East Jct. of SR 88 at Woodfords. There is no alternate route available.
 - Water has receded but there is a +12-foot section of road that has washed out/been damaged.
 - The road is now closed until repairs can be made.
 - Current plan is to place an 8-foot culvert, which will allow traffic access in 2 weeks as opposed to several weeks with other solutions.
- An emergency contractor has been building an off-road access for emergencies services use only.
 - Emergency responder access through a road over Mulberry Creek was completed on 8/8/22.
 - There will be no public or pedestrian traffic allowed

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Cal OES INLAND REGION (Continued)

Debris Flows and Flooding, Alpine County (Continued)

- Storms are expected to continue through the week for the eastern Sierra of Mono and Alpine Counties.
 - These storms will be fast moving and less intense as those of last week but will still be capable as very efficient rain producers.
 - Burn scars will be at risk for more debris flows if storms anchor to the terrain for any length of time.

Activations

- Alpine County Emergency Operations Center is activated at Level 2

Proclamation

- Alpine County submitted a Proclamation of a Local Emergency for the August 2022 Debris Flows due to heavy precipitation over the 2021 Tamarack Fire Burn Scar. The County is requesting State and Federal assistance, including CDAA.

Critical Infrastructure

- South Tahoe Public Utilities District has report mud, rocks, and burned debris blocking roads and bridges at their Diamond Valley Ranch critical water re-use facility.
- The sewage treatment facility has 3-5 feet of mud impacting its settling ponds and blocking access to facilities.

School Impacts

- Student's attending schools in the South Tahoe area will have to travel on buses for 1.5 hours on the available open roads as long as SR 89 is closed. School begins on 08/18/22.
- The County is offering transportation to students to reach school on the other side of the SR 89 closure; however, most parents don't want their children transported over Monitor Pass.
- Some families may keep kids home from school until SR 89 is reopened.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Nothing significant to report.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.
